Description: I can hear the music from the bar Cloister Cafe from my bedroom over my air conditioner. The noise might not be as noticeable from the street side of the apartment but it's very clear from the rear of the apartment. There are people who look like bouncers outside the bar with people waiting to get in (some with without masks). The entrance to the bar is at 238 E 9th Street (Manhattan). The bar also has an outdoor patio space that is behind a metal gate between 238A E 9th Street and 234 E 9th Street. The music is likely being played from that outdoor patio space. To the right of that gate is a brick wall that says Cafe Tuscano. This happened Thursday, Friday, and Saturday nights as well. Here is the SR for one of the noise complaints: 311-03252533. The noise is coming from the outdoor patio space that's attached through the back of the cafe located between 238A E 9th Street and 234 E 9th Street (Manhattan).

Description: Establishment is Cafe Tucano, formally the Cloister Cafe. Pounding music every night except Sunday and Monday until 3:00am. Cannot be heard from the street but is very loud in my bedroom located around the block at 139 2nd Ave, which overlooks cafe garden and where dance music originates. This is the 4th time I have lodged a noise complaint in the last 10 days. I was told I'd get an email detailing how to arrange a noise measuring visit from the city but I have yet to receive one.

Description: The New cafe near me called Cafe Tucano (238 e 9th street) has been having an underground club with bottle service all night long every single weekend and the noise is getting out of hand. I went to check it out last weekend to see what was going on and nobody was wearing masks inside or following social distancing. On the weekend this goes until 4am!! It's getting out of hand. On the weekends, Cafe Tucano. A new spot.. you should see a bouncer outside at the door and a host.
